Client testimonial

“My stallion got a fright and misjudged the fence line, running straight into Border Line, it was as if he had hit a trampoline, he just bounced back!”

High quality nylon sighter wire for any property.

Perfectly suited for all 'sighter wire' applications. It's forgiving and flexible, making it horse-safe and a breeze to install. Stock & Noble Border Line is a steel-free wire, so it won't cause lacerations like steel or unforgiving wires. So less vet bills, more money in the wallet and a happier horse.
